Beatnik™

Open Source

Develop Functional Space in Any Space

Beatnik Open-Source is a modular furniture system with integrated multimedia technology, designed for a variety of functions, activities, spaces or occasions. Featuring numerous modules and additional features, it creates public or semiprivate functional islands in virtually any kind of space.

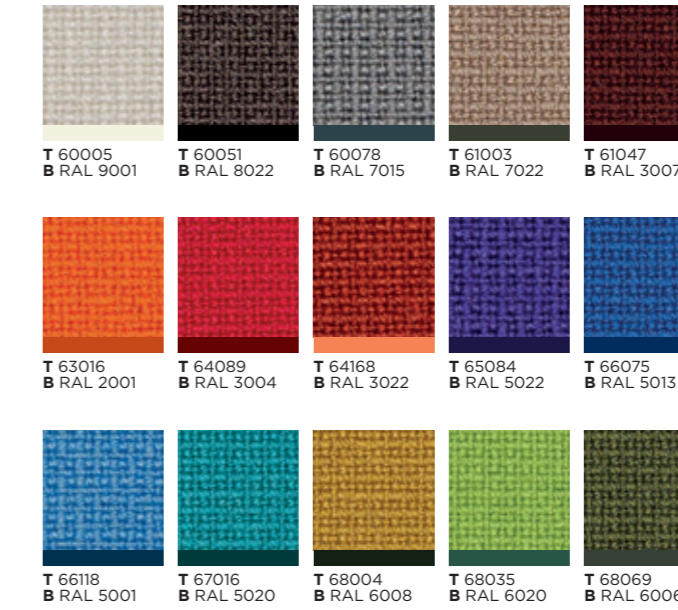

Modular Solutions For Multiple Functions

Design your own Beatnik Open Source by combining different furniture modules for different functions. Choose among various seating arrangements featuring a bench with or without lower back support, add a table, a shelf for books or magazines, an arm rest, a coat hanger or overhead lighting and create a quality, well-designed functional space tailored exactly to your needs.
