**Keep it
Simple**
office chair

designed by:

A Relationship That Lasts, Simple

Keep it simple chair is a keeper. Its natural materials feel soft to your touch. The wood is exquisite. Even when you're in the mood for something else, simply change its clothes that are held together by a touch of a magnet.

Simplicity at its finest.

The chair's special feature are the built in magnets that hold wood and fabric together, which allows for simple personalization with a wide choice of material and color. The idea behind Keep it simple chair is, as its names says, very simple; natural materials in combination with quality craftsmanship upholstery and the ability to precisely adjust the

armrest. Simply changing the worn down backrest, extends the chair's life span. Basic elements of the chair are wooden steam-shaped panels that can be veneered or painted. Built in magnets inside the panels allow the fabric backrests to be easily replaced.

Find your perfect match

Regardless of your preferences when it comes to size, color or material, you can be sure that with Keep it simple, you only get the very best – nothing more and nothing less. Keep it simple is upholstered with natural materials such as pure wool or 100 % sustainably grown hemp fabric and its backrest and seat are made of wood. Keep it simple is available in over 29 material and color combinations. You can also choose different veneers or colors to be applied under the chair's seat and onto the wooden backrest and even armrests.

Sometimes being successful is more than just about strategy, it's also about what feels right and finding the right people. If we were to boil it down our philosophy is this: We believe that if you are aware of your limits you will most likely stop there! So we have a profound commitment to find innovative design solutions beyond the borders of the things we know and we are used to! We try extremely hard to do this for people we enjoy, with products we believe in and having fun while we are at it.
